JADM

Japanese Association for Disaster Medicine

WADDEM cordially invites you to participate in the 23rd Congress on Disaster and Emergency Medicine, an event that brings together global experts to share research and exchange knowledge in disaster medicine, prehospital care, and the health aspects of emergency management and complex humanitarian crises.

The congress will take place at the Keio Plaza Hotel, Shinjuku City, in Tokyo from 2-6 May 2025. The scientific program is being developed and will feature plenary sessions, panel discussions, oral and poster presentations, workshops, networking opportunities, and more!

Congress Topics Include:

- CBRNE
- Capacity Building
- Data Capture and Management
- Displaced Populations and Refugees
- Education, Training, and Simulation
- Emergency Medical Teams (EMTs)
- Infectious Diseases
- Hazards and Exposure
- Health Care Worker Safety and Well-Being
- Humanitarian Care and Population Health
- Mass Gathering and Event Medicine
- Nursing
- Pediatrics
- Prehospital Care and Transport
- Psychosocial and Mental Health
- Public Health
- Technology (AI, Drones, Robotics)
- Transdisciplinary Collaboration

We look forward to welcoming you to Tokyo!
